

**SOMMER CABLE DMX Cable XLR 5-pin 10m bk Hicon**

High-quality data cable

**Art. No.: 3030746M**

GTIN: 4049371022613

**List price: 60.57 €**

incl. 19% VAT.

**Description:**

DMX cable by premium manufacturer Sommer Cable

These premade cables are the perfect choice for the transmission of the 110 ohms AES/EBU DMX512 data format.

Important note: the use of a standard microphone cable is not recommended due to data and information losses (caused by the skin effect). In the lighting domain data losses cause a total jam with signal transmissions or the control of scanner systems.

The very affordable price of this cable should make it easy to switch from a standard microphone cable to a proper AES/EBU cable. Our AES/EBU cable guarantees the error-free data transfer even over longer distances of up to 100 metres. We use the BINARY 434 AES/EBU MKII AES/EBU cable with 100 % shielding and the HICON XLR connectors.

**Logistic**

EAN / GTIN: 4049371022613

Weight: 0,75 kg

Length: 0.28 m

Width: 0.28 m

Height: 0.04 m

**Features:**

- AES/EBU- and DMX-conformant, highly flexible
- Very good shielding through the use of copper spiral shielding and a fleece vaporized with aluminum
- Extremely robust with an especially strong jacket
- Only a little more expensive than a standard microphone cable
- For networking of scanners, lighting units, digital mixing boards, etc.
- For connection of digital audio amplifiers, DAT-recorders, etc.
- HICON
- Suitable for outdoor use
- Made in Germany

**Technical specifications:**

|                     |                        |
|---------------------|------------------------|
| Cable construction: | 4 x 0.34 mm² DMX cable |
| Cable length:       | 10 m                   |
| Plug A:             | 1 x 5-pin XLR (M)      |
| Plug B:             | 1 x 5-pin XLR (F)      |
| Use of brands:      | HICON                  |
| Color:              | Black                  |
| Weight:             | 0.73 kg                |
