EUROLITE LED KLS-400 Compact lightset

DMX LED spotlight set with RGB LEDs for mobile use

Art. No.: 42109780

GTIN: 4026397371321

Description:

Unrivaled!
Thinner, lighter and more space saving. As due to these characteristics the new flat screens knock off the old tube televisions, the old PAR cans could be displaced by LEDs. The Eurolite LED KLS-200 - exclusively developed for EUROLIGHT and thus only available here - sets a perfect example. Because the 720 LEDs (240 red, 240 green, 240 blue), that split on four spots, don't need a huge and heavy housing as is the case with halogen headlights. According to this, the whole construction shows up very compact, lightweighted and extremely flexible - whereas the stability is always guaranteed of course. The KLS-400, with almost twice as much LEDs it is even more powerful than her little sister KLS-200, can easily be put in the also delivered bag, transported and assembled by just one person. A must-have for mobile DJs, bands or solo entertainers who do set value on a compact, easily transported and highly luminous light set. A foot switch for a direct and individual control is optionally available. An unique and imposing solution, that will definitely be very popular.

Features:

- Complete LED light set consisting of 4 slimline spots and a crossbar with integrated DMX control unit and stand adaptor
- Ultra-light ideally suited for mobile use
- Comes pre-assembled with pratical transport bag
- 180 x 10 mm LED per spot (60 x red, 60 x green, 60 x blue)
- Movable and tiltable spotlights
- DMX-controlled operation or stand-alone operation with processor-controlled color change
- Master/Slave operation
- Sound-control via built-in microhone with sensitivity control
- Convenient control possible via optional 4-pedal foot pedal FP-1 (preset, sound control, freeze, blackout)
