Description:

Fog clouds at its finest!

There is no doubt about the important role fog plays in the entertainment industry. But a fogger is not simply a fogger. Regarding the quality, great differences can be found. Presenting our EUROLITE FSM-150 we now offer you a professional unit, which is definitely no mistake, as it does convince through its outstanding workmanship, construction and power. In huge discotheques or on stages its preferences come into their own. It has a very strong smoke output up to 4 meters at its disposal. To prevent an unintentional after fogging. Moreover an automatic output stop was installed. A very useful characteristic: the variable output angle. With the FSM-150 it can be set approximately 70° upwards or downwards. Thus you can precisely control the fog and set it purposefully. Try it out. This reliable fogger will not leave you out in the rain!
