The article is no longer in our assortment.

Description:

A powerful semi-professional pure diode laser, capable of intense standard laser effects like beams, waves and tunnels but also basic graphics all of which can combine with the 3 built in grating effects (line, burst and radial) to become a real room filler.

This laser has easy plug and play, sound-to-light and stand-alone modes, DMX control, so it can be controlled with the rest of your lighting, but also has an ILDA port for computer control. Perfect for medium-sized to large nightclub installs, indoor events and mobile DJs.

Features:

- Control via DMX; master/slave function; ILDA; sound to light; stand-alone
- With mounting bracket
- Monochrome 4 digit 7-segment LED display
