Description:

The LED D-2000 Beam Effect by Eurolite comes equipped with 5 high-performance 10-watt LEDs in the colors red, green, blue, amber and white creating dynamic strobe and derby effects.

The LED D-2000 works with 3 preset programs. In the automatic mode, the preset light programs are played fully automatically without any further adjustments on your part. Alternatively, you can choose the sound-controlled mode via the built-in microphone with adjustable sensitivity. You can also operate multiple devices in sync using the master/slave mode.

Apart from the preset programs, the LED D-2000 can also be controlled via 5 or 9 DMX channels. For the addressing and settings (such as the color selection for 15 mixed colors, color changes, fade effects or dimmer effects) you can either use the 4-digit LED display and operating buttons on the rear of the device or the supplied IR remote control.

What is more, the LED D-2000 is compatible with QuickDMX, the wireless DMX system by Eurolite. A phantom-powered USB port for a wireless transmission of the DMX signal through a QuickDMX receiver can be found on the rear of the device.
