

EUROLITE LED FE-600 Flower effect

RGB flower effect with LED technology

Art. No.: 51918619

GTIN: 4026397381689

Description:

An ocean of beams!

A spark is enough to trigger off a fire. This means, that small things can have huge impacts as well. It's an old wisdom which, in the figurative sense, also fits our new LED FE-600. Instead of the spark we got three powerful LEDs (3 watt). The fire finally is displaced by an ocean of beams, which is kind of unique in its own manner. Powered by three small diodes the colorful beams spread all over the room. To control the beam's movements and the speed of the movements, two possibilities are given. Either via the inbuilt microphone, or with the DMX control. Just as you wish and is appropriate for the occasion. But it doesn't really matter which setup you choose. The beams exit six lenses and they definitely know how to work the dance floor.

Features:

- DMX512 control via regular DMX controller (occupies 4 channels)
- The colorful flower-beams change their direction of movement at every bass-beat in sound controlled mode
- Sound controlled via built-in microphone
- Microphone-sensitivity adjustable via rotary-control
- Strobe effect
- Auto mode
- Chaser speed adjustable via DMX
- Internal programs
- Master/Slave function
- Rotation of the flower-beams adjustable via DMX
- Addressing and setting via control panel with 4-digit LED display
- Rugged compact housing in an appealing design
