

## EUROLITE LED B-15 Beam effect

Mirror ball effect with 3in1 color mixture

Art. No.: 51918830

GTIN: 4026397401509

**The article is no longer in our assortment.**

### Description:

This ball needs no mirrors!

Even if mirrorballs are classics and certainly possess a charm of their own, there are alternatives which should be considered. One of which is our EUROLITE LED B-15. The produced effect is very similar to that of mirrorballs - countless beams throw small dots of light onto walls, floor or ceiling. But the technology is different, more modern, therefore increasing the presentation possibilities. After all, the B-15 is equipped with a 10 Watt Tri-Color LED. It not only creates a powerful light, it can display the entire RGB color spectrum. Thanks to the Multichip-Technology, an exquisite color mix is created and the colors fade smoothly from one to the next. Since the B-15 is constructed as a half-ball, it can be installed on the floor, on the wall and on the ceiling. The beams exiting from the 55 lenses can be controlled via the built-in microphone in stand-alone mode, or via a regular DMX controller in DMX Mode. It doesn't always have to be a mirror ball, or?

### Features:

- Half ball with 55 lenses
- Equipped with 1 x 10 W TCL (tricolor LED)
- Particularly bright illuminating power of the LEDs
- Long LED life
- Up to 20 rotations per minute
- Sound controlled via built-in microphone
- Microphone-sensitivity adjustable via rotary-control
- Strobe effect
- Auto mode
- Internal program
- Stepless RGB color changing
- Programmable color-change speed and strobe effect

### Logistic

EAN / GTIN: 4026397401509

Weight: 3,60 kg

Length: 0.32 m

Width: 0.32 m

Height: 0.29 m

- DMX-controlled operation or stand-alone operation with Master/Slave function
- Innumerable uses
- When smoke is used, this effect becomes especially attractive
- Ideal for bands, stages or solo entertainers
- Hanging or standing installation possible
- Mounting bracket for installation on a truss system included
- Ready for connection with power cord and safety-plug
- DIP switches for adjusting the DMX-starting, stand-alone operation with Master-/Slave-function and speed are adjustable via DIP switches
- DMX512 control via regular DMX controller
- Advantages of LED technology: long life of the LEDs, low power consumption, minimal heat emission, defacto maintenance free with brilliant light radiation
- Can be operated in 6 CH mode

## Technical specifications:

|                         |                                                 |
|-------------------------|-------------------------------------------------|
| Power supply:           | 230 V AC, 50 Hz                                 |
| Power consumption:      | 25.00 W                                         |
