

EUROLITE PowerDome 200 RGBW

Extremely bright R/G/B/WW LED beam effect, incl. IR remote-control

Art. No.: 51918860

GTIN: 4026397749656

Description:

The classic mirror ball effect is a must-have for any party, but traditional mirror balls are often not very practical for mobile use. This fixture recreates that iconic effect while offering much more.

Equipped with twenty powerful 10 W LEDs, it projects numerous light points into the room through 42 lenses. The rotating lens dome can be adjusted in both speed and direction, accurately simulating the mirror ball effect: from slow, elegant rotations to fast, dynamic movements.

The color mixing is based on red, green, blue, and warm white. The specially tuned warm white closely resembles the classic look of a mirror ball illuminated by a halogen spotlight, while the additional colors allow for a wide range of vibrant effects and combinations.
