Description:

Bring decorative greenery into your home and offices with the artificial lampbane grass! During the production of the approx. 120 cm tall ornamental grass, a lot of attention was paid to lifelike details: starting with the pseudo-ears, which resemble lamp cleaner brushes, to the slender, filigree leaves in various shades of brown and green. The stalks with their cylindrical inflorescence are graduated in height and surrounded by lush tufts of grass. These already fall into shape by themselves when placed. No time-consuming plucking is necessary. A plain gardener's pot makes it easier for you to pot them in a suitable planter and serves to better hold the artificial plant.
