
UV Protect Spray, 400ml

UV protection spray for artificial plants

Art. No.: 83301320

GTIN: 4015170002514

The article is no longer in our assortment.

Description:

Faded colors in direct sunlight?

With our UV Spray for artificial plants you protect your artificial plants from fast fading color pigments. It improves the color quality and the brittleness of dried flowers is reduced. It can be used for artificial plants, silk flowers and dry flowers.

Usage:

Free the plant from dust and dirt and spray evenly thin from approx. 30 cm distance.

Depending on the location - especially outdoors - the UV protection spray should be used regularly.

Features:

- For subsequent impregnation
- Protects against rapid fading
- Improves the color quality
- Suitable for indoor and outdoor use
- Content: 400 ml
- Made in Germany
