Description:

Whether to support the product presentation of your shop in the wintertime or at home: The inflatable figurine set from Europalms cannot be overlooked due to its length of approx. 200 cm and total height of approx. 135 cm!

A golden reindeer is stretched out in front of the red-yellow Christmas sleigh and can hardly wait for the ride to begin. But Santa Claus is on his guard and holds the reins firmly in his hand. A snowman with a typical carrot nose is allowed to accompany him on his journey and is well prepared for the cold season with a blue scarf and top hat.

In the dark, the inflatable figure comes into its own particularly well, as it is discreetly illuminated from inside by cold white LEDs.

And this is how easy it is:

For operation, connect the figure permanently to the power supply via a 1.70 m long supply cable. It then inflates to its full size all by itself. The IP44 protection class also allows it to be set up in protected outdoor areas.

After the season the figure can be folded up again to save space.

Features:

- Figurine glowing
- Easy to assemble
- Self-inflating
- Space-saving storing
