Classic ghost as a life-size hanging figure

## Description:

It doesn't always have to be scary!  Welcome your guests with our friendly white ghost, who conjures up a friendly atmosphere with his pleasant appearance.

The "body" of the approx. 215 cm tall decorative figure is made of airy white fabric. This gives it a certain lightness and inviting appearance, encouraging the viewer to come closer. He wears a black pointed hat on his head, to which a loop is attached, which serves to hang the decorative figurine. He greets your guests with big eyes and a broad smile, while a WELCOME sign made of artificial bone is also located between his slightly bendable arms.
LED fairy lights are attached under the fabric of his robe, creating a magical lighting effect that resembles a gentle waterfall of light. This gives the ghost a warm and inviting aura, making it a friendly greeting in the entrance area or as a room decoration.

Thanks to an integrated timer function on the on/off switch, the lighting can be easily controlled: The lights stay on for 6 hours and then automatically turn off for 18 hours. Additionally, there is an option to manually control the LEDs with a wired button - they stay lit as long as the button is pressed.
