Description:

The inflatable Halloween scene from Europalms is the ideal alternative for all those who don't have time for elaborate event decorations in their hectic everyday lives. This uncomplicated solution allows you to conjure up a spooky Halloween atmosphere in just a few simple steps. The interconnected scenery consists of a spooky ghost with a magic hat, a family of 5 pumpkins in bright orange and a gravestone. Even if the pumpkin family is beaming at you with smiling faces, the little grim ghost manages to send a shiver down the spine of every visitor. Its mouth is open and four pointed little teeth flash dangerously in the pale light of the moon, while the gravestone is eerily illuminated from within.

The result is a fascinating combination in which the sinister meets the friendly, capturing the complexity of Halloween: Fear, horror but also inviting moments of togetherness. The IP44 protection class also allows the decoration to be set up in protected outdoor areas.

And it's that simple:

To operate, the Halloween scene is permanently connected to the power supply via a two-meter-long supply cable. It then inflates to its full size on its own. Additional ground spikes and ropes are included to ensure a stable stand. After the season, the air is simply released and the figure can be folded up again to save space and await its next appearance.

Features:

- Glowing
- Self-inflating
- Space-saving storing
- Suitable for protected outdoor areas IP44
- High quality
