

EUROPALMS Fall Motor up to 1.5 kg

Art. No.: 83316180

GTIN: 4026397753332

List price: 83.18 €

incl. 19% VAT.

Description:

When gravity turns into a moment of terror.

Lurking in dark corners, above narrow passageways, or hidden high above, fall mechanisms unfold their full effect. The abrupt fall of a figure from seemingly nowhere uses one of the oldest effects of horror: the sudden loss of control. This is exactly where the Fall Motor comes in, bringing movement, excitement, and unpredictability to any Halloween scene.

The EUROPALM Fall Motor is a compact motor block designed to trigger controlled falling movements in Halloween figures, spiders, or other hanging decorative elements. The motor is attached using an adjustable Velcro strap, allowing for flexible and secure mounting. Suitable attachment points include trusses, ceiling beams, railings, stair structures, pavilion struts, or sturdy branches. This makes the Fall Motor equally suitable for professional event organizers in event halls, tents, or amusement parks, as well as for private decorations in the house, on the balcony, in the carport, or in the garden.

A spring with a sturdy carabiner is located on the underside of the motor block. Halloween figures, spiders, or other lightweight decorations with a maximum weight of 1.5 kilograms can be securely attached using this carabiner. The integrated spring ensures smoother movement and reduces jerky motion during the fall. To ensure trouble-free operation, make sure that the cord can be fully unwound. Only with sufficient drop height can you prevent the cord from becoming tangled or blocked and losing its effect.

The Fall Motor is a versatile technical basis for dynamic horror effects and complements both animated Halloween figures and classic hanging decorations. When positioned correctly, it creates an unforgettable moment of surprise that makes every scene feel lively and unpredictable.

Logistic

EAN / GTIN: 4026397753332

Weight: 0,66 kg

Length: 0.15 m

Width: 0.09 m

Height: 0.18 m

Features:

- Powered by a battery/battery pack
- Animation time up to 45 seconds

Technical specifications:

Power supply:	5V DC Or 6V DC
Power consumption:	3 W
Protection class:	Protection class III
Power connection:	Mains input via USB C (W) mounting version Battery/battery pack (not included)
Battery:	4 x Mignon (AA) (not included)
Effect:	Via motion sensor, acoustic sensor or button Time up to 45s
Maximum load:	1.5 kg
Housing color:	Black
Connections:	Input: microphone via 1 x 2.5 mm jack (stereo) mounting version Input: motion sensor via 1 x 2.5 mm jack (stereo) mounting version Input: foot control via 3.5 mm jack (mono)
Season:	Halloween
Dimensions:	Width: 15.3 cm Depth: 7.2 cm Height: 10.2 cm
Weight:	0.57 kg
Cable length:	3 m
Connector type:	2.5 mm jack plug (stereo)
Cable length:	3 m
Connector type:	2.5 mm jack plug (stereo)

Scope of delivery:

- 1 x device
- 1 x hooks
- 1 x motion sensor
- 1 x microphone
- 1 x screwdriver
