Animated figure with light, sound and motion effects

Art. No.: 83316186

GTIN: 4026397756180

List price: 83.18 €

incl. 19% VAT.

Description:

No Halloween display is complete without a skeleton. Whether lurking in ancient crypts, abandoned ruins, or eerie graveyards, skeletons have symbolized mortality for generations and remain one of the most iconic elements of Halloween. This animated version takes the classic decoration one step further. As soon as its eyes begin to move and glow, it creates the chilling illusion that the skeleton is watching everything around it.

Standing approximately 160 cm tall, the Skeleton by EUROPALMS features a classic bone-colored design with highly detailed sculpting for a realistic appearance. Its fully poseable arms, legs, and hands can be adjusted individually, allowing you to create a variety of lifelike poses. As soon as the animation is activated, the skeleton's eyes move restlessly from side to side while an illuminated lighting effect makes its gaze even more striking. Eerie voices and haunting sound effects complete the illusion, making it seem as though the skeleton is carefully watching every movement nearby.

A practical hanging loop on the skull allows the figure to be easily suspended from ceilings, tree branches, or entryways, making it a versatile addition to a wide range of Halloween displays.

With an animation cycle of up to 22 seconds, this classic skeleton becomes an eye-catching highlight in any Halloween scene.

Features:

- Animated figure with light, sound and motion effects
- Sound effects
- Eyes with motion effect
- Eyes white glowing
- Animation time up to 20 seconds
- Hanging
