

EUROPALMS Halloween Rappelling Decorative Spider, animated, 60cm

Animated figure with light, sound and motion effects

Art. No.: 83316188

GTIN: 4026397756227

Description:

Few creatures send chills down the spine as instantly as a spider. Even the silent glimpse of one is enough to make people instinctively step back. That is exactly why spiders have been among the most iconic symbols of horror for centuries and remain an essential part of any convincing Halloween display.

With a span of 60 cm, the animated giant spider from EUROPALMS looks as though it has just descended from its hiding place. Its black body is covered in fine hair and features a highly detailed skull that gives the figure an especially macabre appearance. The eight poseable legs can be adjusted individually to create a remarkably lifelike stance.

Once the animation is activated, the spider moves up and down on its string by approximately 18 cm for about 20 seconds, while its eyes flash an eerie blue. The movement is accompanied by ghostly sounds and sinister laughter, creating the impression that the spider has already spotted its next victim. Thanks to the practical hanging loop, the figure can be easily suspended from ceilings, tree branches, or entryways, where it delivers an unforgettable Halloween scare.
