Description:

For decades, stories of unknown life forms have captured the human imagination. But what if not every visitor from the depths of space comes in peace? This eerie creature offers a chilling answer, combining the horror of a zombie with the appearance of an extraterrestrial being.

Standing 190 cm tall, the animated Alien Zombie by EUROPALMS looks like an intruder from another world. Its tattered olive-green robe hangs loosely from its gaunt frame, held together only by a simple rope. The true focal point, however, is its terrifying head. Deep skeletal features, an elongated skull, and a twisted mouth give the figure an appearance that is both alien and menacing. Long, weathered strips of fabric hang from one hand, creating the impression that only the last remnants of its clothing have survived.

As soon as the animation is activated, the Alien Zombie slowly comes to life. Its head and arms begin to move as though the creature is searching its surroundings for its next victim. At the same time, its eyes flash an intense red while eerie sound effects heighten the threatening atmosphere.

With an animation cycle of up to 50 seconds, the figure delivers its full scare effect and becomes an extraordinary focal point for any Halloween display.
